Based on the International Economics section of the GEC ‘A’ Level Economics syllabus, this resource package for teachers provides information and data on the EU as a global trade power, its role in the WTO and its trade and investments with Singapore and the ongoing FTA negotiations. This information and facts will be useful for teachers in preparing lesson plans and case studies related to the topic of globalisation and international trade.

Publications (Click to download)

1. Leadership, Decision-Making and Governance in the EU and East Asia: Crisis and Post-Crisis (workshop report)
2. The European Union: Still ‘United in Diversity?’, by Barnard Turner (working paper)
3. The Struggle against Neoliberal Austerity and the Survival of the European Project, by Timothy Miski (working paper)
4. Balancing Civil Rights & National Security: What makes and Governance in the EU and East Asia
5. The Programme will comprise a 3-day workshop with the Ministry of Foreign Affairs, Singapore, on ‘How to Negotiate with the European Union’ on 5-7 Dec 2011, which combined negotiation skills training along with critical knowledge of the EU, its institutions, decision-making practices and cultural. The workshop was attended by external foreign ministry officials from the region.
